
The New Improved Adjustable Joint Cutter and Planer.

Most Complete Mitre Machine in Use.

THIS Machine is used by Picture Frame, Sash, Door and Blind, and Cabinet and Furniture Manufacturers, and in every branch where mitreing is done. It is unequalled for capacity and insures a perfect mitre with the least amount of labor.

Saves time and mouldings and does not require a skilled person to work it. Without doubt the best mitre machine ever offered.

It cuts both joints at once, does not break the rabbits, has a shearing cut, requires no setting and is always ready for use. With improved rule for measuring no time is lost. It is strong and powerful and built from the best iron and steel. All the working parts, surfaces, &c., are planed true, and it cuts 4 in. wide and 3½ in. high.
